## 1. INTRODUCTION

This manual is compiled as a statutory requirement in compliance with the provisions of section 51 of the Promotion of Access to Information Act, 2000 (PAIA), which mandates all private bodies to compile and publish a manual indicating information/records under its custody that are readily available to the public, as well as those that need to be requested through provisions of the Act.

Enza Construction (Pty) Ltd (“ENZA”) is committed to compliance with the regulatory framework and directives of the South African Constitution which ratify the key principles of good corporate governance, transparency and accountability.

The Promotion of Access to Information Act No. 2 of 2000 (“PAIA”) gives effect to carry out section 32 of the South African Constitution, which focuses on the right to access information, i.e. everyone has the right of access to information held by the state or a private body in order to enforce a culture of transparency and accountability.

Section 51 of PAIA obliges private bodies to compile a manual to enable a person to obtain access to information held by such private body and stipulates the minimum requirements that the manual has to comply with.

This manual is compiled in accordance with section 51 of PAIA as amended by the Protection of Personal Information Act, 2013 (“POPIA”). POPIA promotes the protection of personal information processed by public and private bodies, including certain conditions so as to establish minimum requirements for the processing of personal information. POPIA amends certain provisions of PAIA, balancing the need for access to information against the need to ensure the protection of personal information.

This PAIA manual also includes information on the submission of objections to the processing of personal information and requests to delete or destroy personal information or records thereof in terms of POPIA.

- To give effect to the constitutional obligations of the state to promote a human rights culture and social justice.
- To establish voluntary and mandatory mechanisms or procedures to give effect to the right of access to information in a manner which enables persons to obtain access to records of public and private bodies as swiftly, inexpensively, and effortlessly as reasonably possible.
